Summary

Associate Software Developer with nearly two years of industry experience. Preparing for the Adobe AD0-E123 certification (in progress).

Experience

Associate Software Developer (AEM Platform), Accenture

Client: Chubb Insurance. January 2021 to October 2021. AEM 6.x.
Published and maintained 100+ pages. Standardised reusable AEM component templates, which reduced authoring time by about 30%. Administered DAM workflows. Completed cross-browser and WCAG 2.0 quality checks.

Android Developer, Zoho

November 2021 to December 2022.

This repository

Personal learning project: an AEM component library with seven HTL components, Sling Models, a client library, and a multi-module Maven build (core, ui.apps, ui.content). Practice work toward AD0-E123, not a client implementation.
